Altitude: 1.600 – 1.800 m **Species:** 100 % Arabica
Variety: Colombia **Processing:** washed **Taste:** wild berries, blackcurrants and cocoa; sweet

Roast

Preparation

A treat for filter coffee drinkers

A big favourite of coffee connoisseurs, Misiones Colombia has lovely sweet notes of wild berries and redcurrant, and a light note of cocoa. Its flavours fill the mouth and flatter the palate at the first sip. Misiones Colombia is made from coffee cherries that grow slowly at 1,600 to 1,800 metres on the steep volcanic slopes of the Andes. The cherries are harvested by hand with great care, then washed and de-pulped to be fed into the fermentation plant. As a final step, the coffee beans are dried. To ensure that the workers receive a fair wage for all their work, we buy the Misiones Colombia green coffee directly from Finca Misiones. You can relish this excellent filter coffee knowing that every cup you enjoy supports a local project in Colombia. With its clear, full body and delightfully creamy taste, this high-quality coffee is a must-have in every filter coffee fan's cupboard – as confirmed by its SCA score of 88 points.
