

FILTER BIO

100 % ARABICA

Pregiata miscela bio per filtro: armoniosa, fiorita, fruttata, delicata

Roast

Preparation

An organic filter coffee speciality

If you are a fan of filter coffee, this coffee should be a permanent fixture in your assortment. The organic Arabica beans selected for this blend come from four coffee-growing countries around the equator. Thanks to wet processing, they exhibit a mild, sweet taste with fruity notes and a fine finish – characteristics that are well preserved by the lighter roasting, making for a very harmonious sensory experience. Highly recommended for filter coffee, but also suitable for mocha.
