### 100% aroma, 0 caffeine

If you want a coffee that is brimming with character, but would rather go without caffeine, Dora is a great choice. The beans for this sweet, fruity and spicy blend come from three coffee-growing countries. The mild Arabica beans from Colombia combine beautifully with the nutty green coffee from Brazil and the stronger, more intense flavour of Robusta beans from India. The result is the perfect espresso with an exquisite crema. Espresso machines and mocha are the ideal preparation methods for Dora.
