If you favour filter coffee and feel like treating yourself to something really special, try Julia - you won't be disappointed. Combining four of our best, most internationally sought-after gourmet coffees, each one of them boasting over 80 SCA points, Julia is the most exclusive filter blend in our range. As soon as the brewing starts, you are greeted by a fine, fruity aroma that precedes the glorious taste explosion in the mouth. Milk chocolate notes and fine fruity bouquet harmonise and complement each other to perfection. Julia is a wonderful filter blend with a fine body and a soft, mild finish. And if you are looking for her other half – the espresso blend – you will find it in Romeo.
